Robert Pattinson is an English film star. He is Edward Cullen in the *Twilight* series. In the films, Edward can do amazing things. For example, he can run very fast and he can read people's thoughts. He can also live under water. In reality, of course, Robert can't read people's thoughts or live under water! But he can do other things. He can play the guitar and the piano beautifully, and he can sing really well. He can also write songs – for example, *Never think*, a song from the *Twilight* films.
